

Caleb Abrams

• Pittsburgh, PA • [Linkedin](#) • [Github](#)

Creative software developer desiring an entry-level position using skills gained in study, research, experience, problem-solving skills, and adaptability to various situations. I am dedicated to contributing effectively to the team's research initiatives and development goals.

TECHNICAL SKILLS

Object Oriented Programming: Web API, C#/.NET, Java

Web Application Development: HTML, ASP.NET, CSS, JavaScript, Vue.js, VB.NET

Database Programming: SQL, ADO.NET, Table Design, E/R diagrams

Development Tools & Techniques: Unit Testing, Integration Testing, Git, Visual Studio, IntelliJ, AWS, Windows, Linux (Ubuntu), CompTIA IT Fundamentals

3D Modeling Software: Unity, Blender

Creative Technical Skills: Adobe CC (Photoshop, Illustrator, After Effects), Clip Studio, FL Studio

TECHNICAL PROJECTS

Mozzarella Mobster

1920s-themed RPG where players navigate the journey of an ex-mobster transformed into a pizza maker. Implementing engaging narratives, interactive elements, and character development within the game using JavaScript, CSS, and HTML.

Jaca Records

Co-created Jaca Records, a record-collection-themed website using Vue.js, C#, and SQL Server. It features a dynamic, user-friendly interface connected to a custom-built database, allowing users to manage their music library with ease.

TEBucks

Created a command-line Venmo-style app using SQL Server, Postman, and C# OOP. Utilized JWT for authentication, interfaced with a database for user data, enabled transactions, handled pending requests, and displayed transaction history based on user actions.
